

*The Santa Clara County Historical
and Genealogical Society presents:*

Using Third-Party Tools To Analyze DNA Results

Tuesday, June 19, 2018

6:30 pm – 8:30 pm

Christine Bell Green, a graduate of the Genealogical Studies program at the University of Toronto, completed an Advanced Genealogy and Advanced DNA Analysis Program at the Genealogy Research Institute of Pittsburgh. Christine teaches genealogy in Palo Alto and at the Mountain View/Los Altos Adult Schools.

With these credentials Christine is uniquely qualified to help us understand the latest DNA results analysis tools. Different companies have different tools such as chromosome browsers or family trees to help you compare your DNA results to testers at other companies. Rather than submit your DNA to several different companies, third-party tools can help. She will explore with us the use of GEDmatch and other third-party tools and compare and contrast these new tools with what is available at Ancestry, FamilyTreeDNA, 23andMe and My Heritage.

Refreshments and Conversation: 6:30 pm
Business Meeting and Program: 6:45 pm

Margie Edinger Room – 1st floor
Santa Clara Central Park Library
2635 Homestead Road
Santa Clara, California

Our meetings are free and open to the public.
