

The Santa Clara County
Historical and Genealogical
Society presents

Photo Research With AI

By Mark Thompson

Tuesday, April 15, 2025
6:30-8:30 pm PDT on Zoom

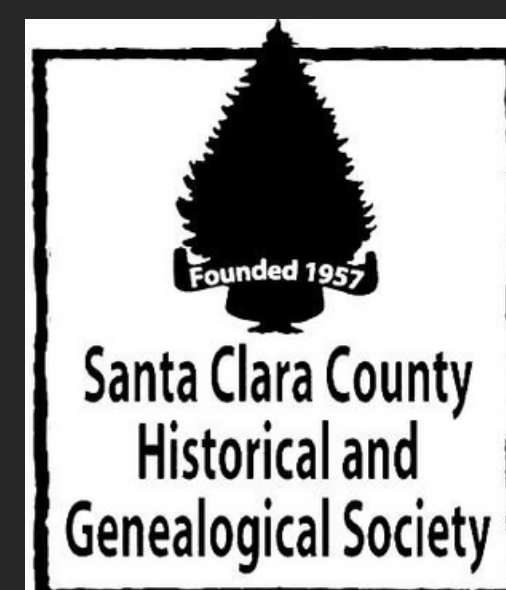

Artificial Intelligence (AI) is revolutionizing genealogical research, offering powerful new tools for both hobbyists and professionals. In this workshop, discover how AI can transform your approach to family history, particularly in the realm of photo research and analysis. Learn to leverage AI technologies to assist you with photo identification, improve image organization, and simplify photo restoration.

Mark Thompson is a professional genealogist and public speaker specializing in the application of artificial intelligence to genealogy. As co-host of the Family History AI Show podcast, Mark helps genealogists bridge the gap between high technology and their family history research.

Our meetings are free and open to the public.

Registration is required:
