and Genealogical Society presents:*

**DNA
A Perspective
on the
Impact on Lives:**

Opening the Floodgates

Presented by Gail Chaid

Tuesday, October 15, 2019, 6:30 pm – 8:30 pm

DNA opens many floodgates for discovery. Adoptees and IVF and sperm donation babies have successfully discovered their origins. What are the results that lead to the successes and enriched stories of our beginnings? There are mysteries to be solved. “The Talk” delves into one of them with a twist in the story. Come and discover this story with Gail Chaid!

Gail is a graduate of Cal Poly, San Luis Obispo earning a B.S., M.A. and numerous life teaching credentials. She taught high school for 38 years, 18 of those running the Independence High School Planetarium. Gail published an article in the Silicon Valley Computer Genealogy Group Newsletter called Pastfinder, September 2014, about her experience in Bulgaria researching her maternal family history. She traveled to Scotland to research her family history for a month each time in 2015 and 2017, gathering an abundance of information to share in her presentations and to help with her family history.

**Refreshments and Conversation: 6:30 pm
Business Meeting and Program: 6:45 pm**

**Redwood Room – 1st floor
Santa Clara Central Park Library
2635 Homestead Road
Santa Clara, California**
